

## Commercial Fencing Solutions

**Landscape Design Contracts is an established Landscaping & fencing contractor, working extensively with many major UK construction companies and clients who own/manage commercial property - from industrial units and warehouses, local authority contracts, hospitals to facilities managers for Home Office and MOD establishments. We operate throughout Scotland and the North of England**

LDC work with all leading commercial fencing manufacturers so can supply and erect any fencing system on the market, including those detailed in BS1722 and S.E.A.P specifications.

- Our operatives have been trained in the erection of all fencing systems.
- Our operatives, contracts managers and management are 100% CSCS registered to the appropriate levels.
- We are Construction line registered.
- We are a member of the Fencing Contractors Association
- Landscape Designs is a Chartered Contractor and as such, can offer a 10 year insurance backed guarantee on many of the products we install at no extra cost.

### Our Commercial Fencing Systems

Below are some of the commercial fencing systems available, but if you can't see what you are looking for in the options below, please call us to discuss, and we will be happy to help.

We supply and install:

#### High Security Fencing

- BS1722 Part 10 chain link
- Part 14 Rigid Mesh
- BS1722 Part 12 steel palisade

#### Timber Fencing & Hoarding

- Timber fencing: site hoardings, close board, post and rail

Landscape Design Contracts specialise in the installation of an extensive range of timber fencing, site hoarding, acoustic barriers, close board and post and rail.

Site hoardings can be supplied and erected to suit a client's specification or to meet a specific budget. These hoardings can be decorated in a client's livery or corporate colour(s). Pedestrian and vehicular gates can also be supplied and installed to match.

Timber acoustic barriers, used as a technique to reduce noise pollution and also remain cost effective. This method also keeps a traditional look by using natural materials.

Close board fencing offers a cost effective, low to medium security solution for industrial and commercial properties. It is available in a number of different heights and specifications to meet client requirements.

## Timber Fencing for Schools

### Close Board Fencing

Close board fencing offers a low to medium level of security and also provides an excellent aesthetically pleasing screen to seclude areas as required.

### Post & Rail

This type of system can give a rustic appearance with only a low level of security. Post and rail gives good through visibility but is easily climbable.

### Timber Palisade

Timber palisade provides excellent playground segregation. It comes in many forms including highly decorative options.

It can be quite a complicated task assessing the best options when considering fencing for schools. Getting the security right is important, and that's where Landscape Design can help.

- 100% of our onsite operatives and contracts managers/directors who provide onsite visits are CRB checked to ensure that we comply with all recent legislation.
- We can offer advice to help with Ofsted safeguarding visits.
- We can install a wide range of security fencing, security gates and access control systems for general purpose, anti-intruder and high security, encompassing every element of the school environment.

Any fencing system installed should:

- Project a positive image of the school
- Provide a safe and secure learning environment with minimal visual impact on the immediate surroundings or neighbours
- Be fit for purpose whatever the specific requirement and be fully compliant with current legislation.

We can help throughout the process of any school security review – from the start, by offering a site appraisal and no-obligation quotation, through to installation. We will ensure that any fencing system used meets the highest standards of product quality and installation, providing a long-term, risk-free solution.

**Landscape Design can provide a professional tailored maintenance solution for all elements of your landscaping needs. To receive more information and a detailed quotation please call David on 01506 639950.**
